SUMMARY

Passionate about web development, I am highly skilled in utilizing JavaScript, React, Node.js, HTML, and SCC. I've created dynamic and responsive websites using React, JS, Next.js, HTML, Tailwind css, Bootstrap with a focus on quality and pixel perfect implementation.

Experienced with Highcharts.js, Swiper. My experience included building fullstack applications. API integration (Binance, OpenAI, Open Weather map). Google, and JWT authentication.

Experienced using version control systems including GitHub, GitLab. Worked with designers to implement fully functional design using Figma.

Key strengths in my skill set:

- effective troubleshooting of complex issues
- seamless navigation implementation
- state management
- secure handling of data and API interactions.
